That's me on the left wearing the sunglasses..

So for the next couple months I want to bring up some controversial issues that we face in the word today. I simply want to present the facts and then let you wrestle with it . A while back I read an article discussing how certain Christian families will favor prayer over medical care for an injury, sickness or illness that takes place in their family. In 2009, a baby was born two months prematurely and lived only 9 hours. Pediatric experts testified that had the family sought medical attention then the baby would have had a 99.9 % chance of survival. The family's reason for no medical care stemmed from the belief in both faith-healing and that only God decides if one should live or die, not doctors. My question is where do you stand on this issue? Are these people negligent parents or an amazing example of faith and trust in God?

Did You Know...

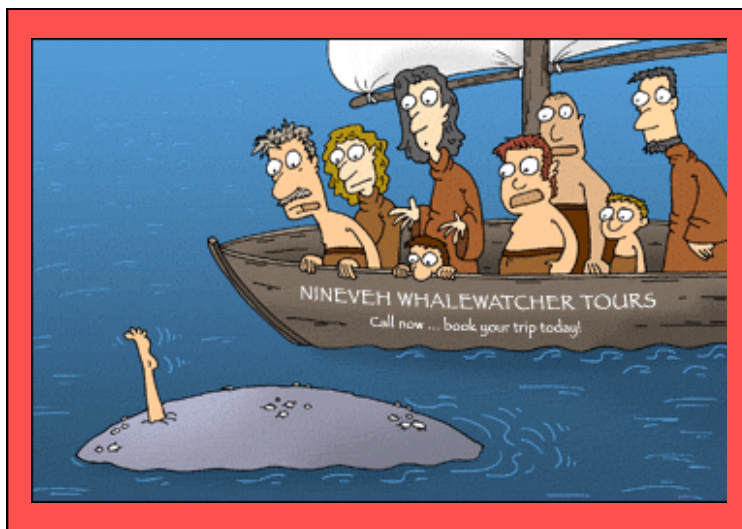

Ohio is listed as the 17th state in the U.S., but technically it is Number 47. Until August 7, 1953, Congress forgot to vote on a resolution to admit it into the union..
